Ceibo 3 is a four-bedroom residence located within the Ceibo community at Reserva Conchal, positioned to capture views of the Esmeralda fairways and surrounding tropical gardens.

Floor-to-ceiling glass, covered terraces, and an infinity pool create a seamless connection between indoor and outdoor living. The double-height entrance opens into spacious living and dining areas that extend naturally toward the terraces.

The four bedroom suites are distributed across both levels, providing privacy, natural light, and comfortable spaces for residents and guests. A versatile flex room can be adapted as a wellness studio with gym and sauna, home office, art studio, media room, or additional guest suite.
